

NovaTech — Company Overview

Company Profile

NovaTech is a fictional software company that builds workflow automation tools for small and mid-sized businesses. The company was founded in 2021 and operates as a remote-first organization.

Products

NovaFlow is NovaTech's workflow automation platform. It allows businesses to automate repetitive approval, notification, and data-entry processes without writing custom software.

NovaDesk is a customer support workspace that combines shared inboxes, internal notes, ticket routing, and customer analytics in one interface.

Target Customers

NovaTech primarily serves businesses with 20 to 500 employees. Typical customers include technology companies, professional services firms, online retailers, and growing operations teams.

Business Priorities for 2026

NovaTech's primary priorities for 2026 are expanding its workflow automation capabilities, improving integrations with third-party business software, reducing customer onboarding time, and expanding into European markets.

Customer Support

Standard customer support is available Monday through Friday, 9:00 AM to 6:00 PM Indian Standard Time. Enterprise customers receive priority support with a target initial response time of four business hours.

Security

NovaTech encrypts customer data during transmission using TLS and encrypts stored customer data at rest. Access to production systems is restricted through role-based access controls.
